IMMIGRATION BOARD ORGANIZES FOR ACTION

Portuguese Homesteaders Are Ready To Come, and A. J. Campbell Will Go To Europe --Money Available First of July

A. J. Campbell will be sent to Portugal within the next few weeks as the agent of the Territorial Board of Immigration. From fifteen hundred to three thousand Portuguese are ready to take passage for Hawaii and take up agricultural work in the islands.

This most important announcement comes from the Board of Immigration meeting held yesterday afternoon at 4 o'clock.

For some time past the Board has been in correspondence with the shipping agents who handled the charters of steamers engaged in bringing the last shipment of Europeans, and these shippers are desirous of conducting the business along the same lines as heretofore. No difficulty will be encountered in procuring charters.

It is also authoritatively announced that the sugar corporations will be ready to pay by the first of July the additional one per cent income tax due in November under the law passed by the last Legislature, thus immediately providing ample funds to carry on the work of getting the people here.

The Board is now organized and ready for business and will proceed to its work immediately.

Permanent offices will be opened either downtown or in the capitol building. These will be in charge of an assistant secretary, probably William Savidge. Information will be immediately sought from those in charge of every agricultural enterprise as to the number of people they can take and what they can offer.

The meeting was called yesterday afternoon by Richard Ivers, the newly appointed president of the Board and Superintendent of Immigration. Those present were E. A. Mott-Smith, J. J. Carden and A. L. C. Atkinson. Mr. Wodehouse, the other member, is out of town.

The first business was permanent organization. Mr. Ivers is head of the Board by virtue of his appointment. 2 Mr. Mott-Smith nominated Mr. Atkinson as Secretary of the Board, which was ratified without

opposition, and E. H. Wodehouse was elected auditor.

With the organization completed, Mr. Ivers outlined his ideas of the proper plan of action. He believed the Board should start its work immediately, open a permanent office where all the statistics and available material for the promotion of the cause may be open to the public and proceed to business.

Waldron Quits the Board

Fred Waldron has tendered to Governor Freer his resignation as a member of the Board of Liquor License Commissioners, to which he was recently appointed. Mr. Waldron is going away for some time, and feels that his business interests require his attention.

The Governor seems to be having a hard time to fill up the license board. No sooner is one man appointed than another resigns. It has been only two days since Mr. Craig was appointed a member of the Board, and now there is another vacancy.

WILL ENFORCE PURE FOOD LAW

Local dealers who have been selling impure, adulterated or imitation goods as the genuine article, contrary to the provisions of the Territorial pure food law, are liable to find themselves in trouble. Robert A. Duncan, food commissioner and analyst of the Board of Health, is after them with a big stick, and has already taken steps to have a warrant sworn out for the arrest of one merchant on the charge of selling imitation goods as the genuine.

Mr. Duncan stated this morning that a large amount of so-called gluten is being sold in Honolulu which is in reality not gluten at all, but simply ordinary flour, of the common or garden variety. Yet the

Japanese Strikers Confer With Those At Waipahu -- Ross' Letter Not Yet Answered--Japanese Contractors Dislike Loss of Money From Strike

Manager Ross of Honolulu Plantation refuses to consider any demand that may be made on him by the laborers of the plantation until they go into the field to work. If the strikers see fit to remain out, their places will be taken by others.

This is the meaning of the letter that was sent to the committee of strikers by Manager Ross last evening. It is also understood that the spirit and purpose of this letter has the solid backing of all the sugar plantation interests of the islands.

They will not deal with men who have so little regard for the interests of their employers that they leave them without notice and subject them to heavy losses.

On the other hand they are quite ready to discuss the situation with the legitimate workmen of the plantations and will cooperate with them in all movements to improve the condition of the workmen.

The letter of Manager Ross is as follows:
Alea, Oahu, T. H., May 12, 1909.
Messrs. T. Okino, H. Koga, R. Horii.

Gentlemen:—Your letter of statement of May 10, purporting to be a statement of grievances by the laborers of this plantation, and a request for the redress of the same, has been duly received by me, and the contents of same carefully noted, not only by myself, but by the owners of the plantation.

In the first place I desire to thank you for your acknowledgment and appreciation of "past kindness and favor" on my part and for the declaration of your present "sincere respect" for me.

Whether I am all you admit or not, I am sure that I have tried to treat you for your acknowledgment and regret that you have found it necessary, with an employer such as you believe me to be, to quit work in a body without
